To Whom It May Concern:

Re: Texas Norvell Fire and Security, Inc.

I am delighted to provide this recommendation letter for Norvell Fire and Security. Jim has provided me many years of great service on numerous new construction projects across the US. He and his team have always been a great turn-key source for our low voltage work, including but not limited to fire alarm, telephone, internet, cable, closed circuit TV and stereo systems. I highly recommend them.

If you have any questions please do not hesitate to contact me.

Sincerely,

Karl Meeks
Associate Vice President
